He ran the last few yards. The entrance to the Tower was an archway carved out of the stone. A heavy, wooden gate had once barred the way, but the bridge had smashed straight through like a battering ram. It looked like Kenji had caused as much damage here as in Pearl's bedroom! Wood and debris were everywhere. He stepped off the bridge and tipped his head back to look up.

Our **November** title is an intimate, personal and unconventional love story, somewhere in between The Diary of a Nobody and Plato's Republic. The Lady Upstairs: isbn 978-1-7393239-6-7: £5.99

It's hard to imagine society without secrets, where everything is open and honest and available. Humans don't seem to work that way. If we were sure of ourselves and our loves then it would not matter what others said or thought, but it does seem to matter to many. Being observed changes the way we behave and the way we see ourselves.
